Profile

Enthusiastic IT graduate with a solid foundation in software development, databases and networking. Skilled in Python, Java, Node JS, PHP and SQL with hands-on project experience. Quick learner, effective communicator and team player eager to contribute to innovative tech solutions.

Education

10th – CBSE – 2019

Amrita Vidyalayam
2018 – 2019 – 84%

12th – CBSE – 2021

Amrita Vidyalayam
2020 – 2021 – 89%

BSC.IT

K S School of Business Management and Information Technology – Gujarat University
2021 – 2024 (4.19 /5.00 CGPA)

MSC.IT

K S School of Business Management and Information Technology – Gujarat University
2024 – 2026 (4.07/5.00 CGPA)

Skills

PROFESSIONAL

- Team Collaboration
- Effective Communication
- Problem solving and Integrity

TECHNICAL

- Web Development – HTML, CSS, JavaScript

Experiences

MERN Stack Developer Intern

Eternal Web Pvt. Ltd. | Jan 2026 - May 2026 | On-site

Gained hands-on experience in full-stack development using React.js, Python (FastAPI) and PostgreSQL.

Developed and maintained RESTful APIs and integrated frontend components with backend services.

Additionally, acquired foundational knowledge of AWS by working with services such as EC2, Auto Scaling Groups (ASG), Elastic Load Balancer (ELB), Systems Manager (SSM), and SSH for deployment and infrastructure management.

Projects

Tender Managemet System

Designed and developed a full-stack web application to streamline tender creation, management, and tracking.

Built backend APIs using **Python (FastAPI)** and managed **PostgreSQL** databases.

Developed **React.js frontend pages** (Blog, Blog Details, Contact Us, Feedback) with responsive layouts and API integration.

Tech Stack: React.js, Python (FASTApi), PostgreSQL, HTML, CSS, JavaScript

Restaurant E-Commerce

Built a full-featured e-commerce web application for restaurant ordering using React.js, Node.js, Express.js, and MongoDB Atlas.

Features: restaurant catalogue with categories, cart, checkout with online payment, order placing and tracking, Wishlist, profile management, real-time stock availability, reviews, and order history.

Share Market Analyzer

Processed stock market data from Kaggle, applied time-series analysis and LSTM for forecasting. Handled data cleaning and

- Languages – Python , PHP, NodeJS.
- Frameworks/Libraries – Bootstrap, Tailwind CSS, Express, React
- RESTApi, FASTApi
- Database – MySQL, PostgreSQL, MongoDB
- Cloud - AWS

Leadership and Involvement

Student Committee Member

K S School of Business Management and information technology
2021 – 2025

transformation, visualized trends, predictions and moving averages for actionable insights.

Multi Disease Prediction system

Developed a fuzzy logic-based system to predict diseases like Diabetes, Heart disease, Thyroid, PCOD and Anxiety. Included symptom/report input processing, fuzzy inference and real-time risk classification. Processed disease-specific datasets with Pandas and NumPy, generating diagnosis probabilities and severity levels for better interpretability.

Certificates

Full Stack Web Development with MERN STACK & GenAI 2025 The Complete Python Bootcamp

Python Django Basics

NoSQL

PHP with MySQL

AWS Certified Cloud Practioner
